

MS-CIT Report

Introduction

The Maharashtra Knowledge Corporation Limited MS-CIT (Maharashtra State Certificate in Information Technology) is one of the most popular computer literacy courses in Maharashtra. It was launched in 2001 to improve digital literacy and computer knowledge among students, professionals, and common citizens. The course helps learners develop essential IT and digital skills required in daily life, education, and workplaces.

Objectives of MS-CIT

- To provide basic computer and IT knowledge.
- To improve digital literacy among people.
- To develop office productivity and internet skills.
- To prepare learners for modern digital workplaces.
- To increase awareness about cybersecurity and online services.
